

Dear Mary,

When 33-year-old Hannah lost her health insurance, she panicked, worried about how she would get the regular the medical tests that she desperately needed. Due to some irregular cells in past exams, it was recommended to Hannah that she get a pap smear and bloodwork every six months. She was due for these tests in the next few weeks.

Enter *Planned Parenthood*.

Because of our services at low or no cost, Hannah was able to get every test she needed, and in a timely fashion.

Right now, women are facing major obstacles in obtaining health care, and while we're actively able to provide care for thousands of women every week, we need your help to make our efforts go even further.

We'd love it if you could make a donation of any amount to help us achieve our mission.

Every dollar collected goes directly toward our ongoing services, plus our outreach efforts to let as many women as possible know that we can help.

Here are the ways you can make a donation:

Donate online at <https://www.plannedparenthood.org/get-involved/other-ways-give> or call us at [1-800-230-7526](tel:1-800-230-7526)

Hannah thanks you for helping her to get the care she needs. We all thank you!

Alexis McGill Johnson
President and CEO
Planned Parenthood Federation of America, Inc.

P.S. If you're unable to make a donation at this time, and would like to explore ways to volunteer, please don't hesitate to contact us. We'd love for you to join us in helping women everywhere.
